Subject: RE: Facility Enforcement History

The HQ EOC searched the RMP info database on CDX using the various facility names referenced below and including Freedom Industries and geographically for Charleston, WV.

We did not come across a matching facility.

The Kanawha Valley WTP (which is impacted by the spill) does pull up as an RMP facility.

I pulled ICIS for Freedom Industries – they are not listed specifically

Ex. 5 - Deliberative

Their POCA Blending facility in Nitro WV – the subject of a multimedia inspection as part of the Region 3 Huntington WV initiative on 11/3 2009. Which included support from Region 4, Region 5 and NEIC . Poca was inspected by NEIC staff, for RCRA, SPCC, and Storm water.

- The facility was covered by a Multi sector general permit for Storm water, and was in compliance with the permit at that time.
- The facility has an RCRA ID #WVR000508473 – they were in compliance at the time of the inspection. – materials onsite were no-hazardous

Ex. 5 - Deliberative

Paul G. Dressel, Deputy Director

US EPA Region 3

Office of Enforcement, Compliance

and Environmental Justice
